

The Migration-Development Regime

How Class Shapes Indian Emigration

A sweeping history of how India has used its poor and elite emigrants to further Indian development and how Indian emigrants have reacted, resisted, and re-shaped India's development in response.

THE AUTHOR

Rina Agarwala is Professor of Sociology at Johns Hopkins University.

AWARDS

- Winner of the American Political Science Association's 2023 Migration & Citizenship Section Best Book Prize
- Winner of the American Sociological Association's 2023 Thomas & Znaniecki Best Book Award for the Sociology of Migration
- Winner of the ASA's 2023 Outstanding Book Award for the Sociology of Development
- Honorable Mention for ASA's Labor and Labour Movements Section's 2023 Distinguished Scholarly Book Award

FEATURES

- Offers a novel framework with which to analyze international migration, namely the "Migration Development Regime" or MDR
- Provides a sociological analysis that compares sending states' use of both poor and elite emigrants
- Compiles and draws on extremely unique unpublished data, including over 200 interviews, the first data base of over 600 Indian-American transnational organizations, and archives of Indian government documents from 1920-present

REVIEWS

"This beautifully written, lucidly argued book is distinguished by two unusual analytic moves. Agarwala is among the few scholars to explore the historical dynamics of migration from the perspective of a sending state rather than that of destination countries. In addition, she relentlessly excavates class differences, comparing the trajectories of elite and poor Indian emigrants and the contrasting policies shaping their divergent experiences. A provocative and essential contribution."

Ruth Milkman, CUNY Graduate Center, and author of *Immigrant Labor and the New Precariat*

"Master ethnographer Rina Agarwala has done it again. *The Migration-Development Regime* tells, as only Agarwala can do, the much-needed but woefully overlooked story of how class matters in the complex relations between a migrant-sending country and its emigrants."

Chris Tilly, Professor of Urban Planning, UCLA
